P.O Box 492261 - Redding, California 96049-3091

## - Membership Form -

The purpose of our association is to organize citizens who want to preserve the agricultural land base and beauty of Churn Creek Bottom (CCB). We are representing citizens who wish to preserve Churn Creek Bottom and to uphold the *current* County General Plan which states:

“Agricultural land uses are a major component of Shasta County's resource land base. They are also a major element in defining the quality of life available to the residents of Shasta County. Were agriculture to lose its land-based prominence in the County, the rural character and country living so valued by its residents and so important to its economy would likely decline. This element encompasses portions of three mandatory elements, namely; land use, conservation, and open space.”

Our members include Shasta County residents and others who share our vision of preservation of agricultural zoning, conservation and open space.

We work with local government and private enterprise to represent our members interests in the areas of commercial development, impacts to Pacheco School, and impacts to our water, air and watershed.

Please renew your membership and invite others you know to join us. Your support is needed!
